PURPOSE OF MoU

In particular, this MoU is intended to

1. Enhance entrepreneurial mindsets among the students of Entrepreneurship Development Certificate Course under Sri **Bharathi Engineering College for Women**,
2. Conduct practical Workshops and Trainings for students towards Industrial Preparedness like Marking of Foundation, Estimation, Valuation, AutoCAD Drawing and Design of Structural Components,
3. Generate self-employment opportunities,
4. Assist the students in establishing various start-ups,
5. Arrange on-the job training for students.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

CLAUSE 1 CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations. The Parties shall keep each other informed of potential opportunities and share all information that may be relevant to secure additional opportunities for one another.
- 1.2 The co-operation between First Party and Second Party will facilitate effective utilization of the intellectual capabilities of the Second Party providing significant inputs to them in developing suitable teaching/ training systems, keeping in mind the needs of the First Party.

CLAUSE 2 SCOPE OF THE MOU

- 2.1 Both parties believe that close co-operation between the two would be a major benefit to the student community to enhance their skills and knowledge.
- 2.2 The Second Party will give valuable inputs to the First Party in teaching/ training methodology so that the students fit into the industrial scenario meaningfully.
- 2.3 The Second Party will permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students through this association will build confidence and prepare the students to have a smooth transition from academic to working career.
- 2.4 The Second Party will train the students of the First Party on the emerging technologies in order to bridge the gap in skill and make them ready for industry.

REPORT OF THE PROGRAM

1	Program Name	Recent Challenges in Industrial IoT
2	Date of program	29.04.2023
3	Resource person:	Er.S.Manikandan Software Developer and Trainer MAR7 Technologies ,Karaikudi.
4	Participants	31
5	Objective of Program	The main objective is to update knowledge on the importance of IoT in industrial sectors and its benefits in terms of productivity, efficiency, and cost savings.
6	Program Description	The program started at 10 a.m. with a welcome address and chief guest introduction by Mrs. R. Yogeshwari, Head of the ECE Department. 31 students attended the seminar. In the forenoon session, he explained the applications of the Internet of Things in industrial sectors and smart cities. In the afternoon session, he continued with the Arduino and Python concepts and model-making process. Students built simple control projects, so the overall session was effective. The session ended with a vote of thanks by Mr. M. Palaniappan, AP/ECE.
7	Outcome of this program	The students have gained knowledge on the present scenario of industrial sectors and their applications. The program provides participants with a valuable opportunity to stay updated with the latest trends in IoT industrial sectors.

Participant Year:	2	Semester:	ODD	No. of Students Registered :	12
Venue:	Seminar Hall, ,Ground Floor, SBECW				

Outcome of Value Added Course (VAC) :At the end of Course ,Students can able to

- Understand the fundamentals of IoT (Internet of Things) and its applications in the field of Electronics and Communication Engineering
- Learn Python programming language and its specific libraries and frameworks for real-time sensor data processing.
- Gain proficiency in collecting, processing, and analyzing sensor data in real-time using Python.
- Develop the ability to interface sensors with microcontrollers or embedded systems and establish communication with the IoT network.
- Learn about different communication protocols used in IoT systems and their implementation using Python .Explore techniques for handling and managing large volumes of sensor data in real-time.

No. of students successfully completed the VAC course is **12 Students** based on the following Assessment process.

Assessment Process

- Students **more than 60% on total score** and secured more than **75%** in attendance is eligible to receive the certificate for the VAC course conducted
- Total Score = $(0.5 * \text{Attendance in VAC out of 100 percentage} + 0.5 * \text{Test mark in VAC out of 100 marks})$

REPORT OF THE PROGRAM

1	Program Name	Research Challenges in Embedded Systems
2	Date of program	24.09.2022
3	Resource person:	Ms.Madhubala, Embedded Developer, GALWIN Technology, Trichy.
4	Participants	18
5	Objective of program	The main objective of the workshop is to identify and address the key obstacles and complexities associated with the design, development and research challenges of embedded systems.
6	Program description	The program commenced with a warm welcome address delivered by Ms.S.Sivaranjani, final year student and chief guest introduction given by Ms.S.Ragabrintha AP EEE Department. The workshop had a total of 18 participants. The resource person enlightened the Resource Constraints, Real-Time Operation, System Integration, Safety and Security, Power Efficiency and software complexity of the embedded systems. These challenges underscore the importance of ongoing research and innovation in the field of embedded systems to address the evolving needs of various industries and applications. All the participants were motivated to do research in embedded systems. The session demonstrated itself as exceptionally attractive and enlightening. The session concluded with a vote of thanks by Ms.M.Pavithra, final year student from EEE Department.
7	Outcome of this program	The students have acquired insights into how the research challenges within embedded systems reflect the complex nature of these specialized computing systems
